Why you can trust this website

We are the **Electoral Management Board for Wales**.

We make sure elections in Wales are run fairly and well.

Elections are your chance to vote for the people you want to represent you.

In 2026 you can vote in the Senedd election. This is when you vote for the people you want to run Wales.

Our job is to give you honest, fair and trustworthy information. To help you vote in elections.

We are separate from Welsh Government, the Senedd and all political parties.

A political party is a group of people that share the same ideas about how to run the country.

We do not favour any political parties.

We give information that is fair and not based on our own views.

The information on this site is checked by many people. It comes from trusted places.

People who run elections in your local area give us information about:

- Polling stations – places you go to vote.
- The political parties and candidates that you can vote for in your area.

Candidates and political parties can send us a short summary about:

- What they stand for.
- And what they want to do.

We will put this on the website. It is written by the political party or candidate.

What they say will be based on their own views and ideas.

We do not change what they say in any way.
